

Welcome to Baselworld! We are looking forward to your visit. Once again we have some great highlights for you.

This year jewellery with tassels is bang on trend and totally eye-catching. The playful chain bundles are in complete contrast with the clear designs of our previous collections.

Another hot topic are rivières. At Baselworld we are presenting a very sporty and completely new interpretation of this kind of bracelets and matching rings.

Recognising trends and creating something that lasts – our aim is never just to create what is possible, but to create something special. Jewellery of Today.

Get inspiration [here](#) or visit us at our stand (Halle 2.1 / Stand F21).

Discover the jewellery that will become your customers' new favourite.
